When you have a SOLAR BODY™, you shine brightly with health, vitality,

a sunny attitude, sparkling eyes, radiant skin, and a glowing spirit.

The Natural Healing Wonders of the Hwangchil Tree

▲ The leaves of Hwangchil

From medicine to stress reliever to rust inhibitor to demon chaser, Hwangchil is a multi-tasking plant you'll want to keep handy. Whether its resin, root or leaf, this healing tree has many benefits for you.

Hwangchil(Dendropanax morbifera), It's golden-colored sap has been a highly prized lacquer throughout southeast Asia, used for everything from medicine to furniture varnish.

Similar to ginseng root, Hwangchil is an adaptogenic herb. Yet, nothing is quite so adaptive as this versatile, clever, plant.

Parts of the Hwangchil tree have been used in folk medicine for the treatment of migraines and menstrual irregularities. Its sap is also an excellent varnish for use on expensive furniture and metalwork.

Hwangchil sap also has a colorful history of driving off demons. Soldiers would apply it to their helmets and armor believing its strong, aromatic qualities would keep bad spirits away.

Because of its powerful antioxidant properties, warriors would also apply the sap to their sword blades and arrowheads to keep them from rusting.

In modern day, because of its waterproofing and soundproofing effects, Hwangchil is used as a "RAM" or radar-absorbent material that makes it less likely for airplanes or ships to be detected on radar.

Hwangchil root and leaves have these most effective and powerful uses and benefits:

Blood Purifier Decrease bad cholesterol while increasing good cholesterol with Hwangchil's blood purifying properties. It also promotes circulation and helps regulate blood pressure.

Liver Cleanser

Give your liver a cleanse with Hwangchil's detoxifying action. Promotes liver function, helping relieve hangover and fatigue by functioning as a detoxifier and helps with feelings of lethargy and lack of ambition.

Anti-Aging Elixir

Look and feel younger. Hwangchil's anti-oxidant rich properties nourish the skin to fight signs of aging; helping to prevent wrinkles and promote overall elasticity of the skin.

Bone and Teeth Strengthenener

Support your gums and protect your teeth. Hwangchil helps build and maintain strong bones and teeth by contributing to the proliferation of osteoblasts(cells that create bone) and helps prevent osteoporosis and arthritis by reducing joint inflammation.

Natural Sleep Aid

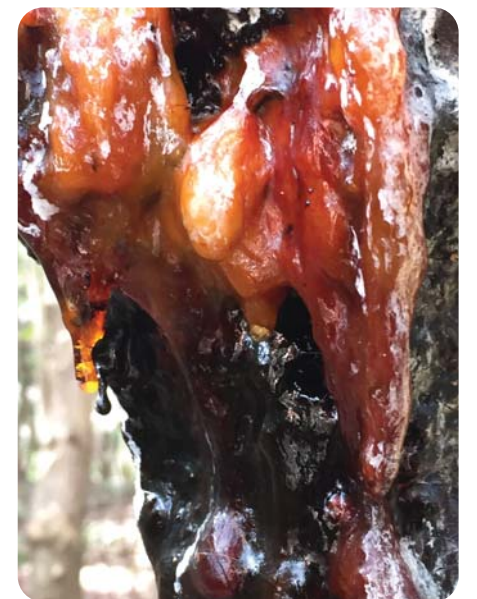

Fall asleep faster and sleep more deeply. Hwangchil's sedative action can help you release tension, irritability and worry—all those things that keep you from getting a good night's sleep.

Natural Pest Control

Use it as a tea or poultice for relieving insect bites, fungal infections or skin rashes. The Hwangchil tree is strongly resistant to disease, pests and pollution, making it an excellent antimicrobial.

Energy Clearing

Clear a room of odors or neutralize negative energies to make a space for meditation with Hwangchil incense. Its sharp, fresh, soothing but stimulating fragrance is similar to benzoin, a balsam resin, and is a powerful way to balance both body and mind.

Reveal the superpowers of your navel **Belly Button Healing Kit**

This kit has everything you need to thoroughly experience the benefits Belly Button Healing – a revolutionary method of rejuvenating the immune system, digestion, management of hormones, blood circulation, and much more, for total body healing.

Benefits of Belly Button Healing

- Improves mood, energy and control of emotions
- Increases blood circulation
- Promotes inner peace
- Releases tension from abdominal organs
- Balances hormones
- Sharpens eyesight
- And much, much more!

Developed by Ilchi Lee after 30 years of research, Belly Button Healing goes far beyond the physical belly button.

The belly button is like an energetic gate to your second brain – the gut. There are over 100 million neurons in the gut that link directly to the brain, which is why you get that “gut feeling” or butterflies in your stomach when you’re nervous or excited. The intestines alone hold about 30% of the body’s blood. The gut also produces 90% of the body’s serotonin, which gives you the ability to feel contentment, and 50% of its dopamine, which helps us experience pleasure and motivation to achieve our goals.
