What Is a SOLAR BODY™

The Natural Healing System Inside Us.

When your natural healing mode is turned on and working at its best, your body becomes a SOLAR BODY™

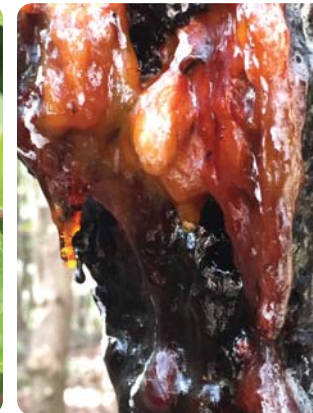

Like the sun, a SOLAR BODY™ is warm and overflowing with energy. It sustains itself with its own natural processes.

When you have a SOLAR BODY™, you shine brightly with health, vitality, a sunny attitude, sparkling eyes, radiant skin, and a glowing spirit.

The Natural Healing Wonders of the Hwangchil Tree

The leaves of Hwangchil

Sap of Hwangchil

From medicine to stress reliever to rust inhibitor to demon chaser, Hwangchil is a multi-tasking plant you'll want to keep handy. Whether its resin, root or leaf, this healing tree has many benefits for you.

Similar to ginseng root, Hwangchil is an adaptogenic herb. Yet, nothing is quite so adaptive as this versatile, clever, plant.

Parts of the Hwangchil tree have been used in folk medicine for the treatment of migraines and menstrual irregularities. It's sap is also an excellent varnish for use on expensive furniture and metalwork.

Hwangchil sap also has a colorful history of driving off demons. Soldiers would apply it to their helmets and armor believing its strong, aromatic qualities would keep bad spirits away.

Because of its powerful antioxidant properties, warriors would also apply the sap to their sword blades and arrowheads to keep them from rusting.

In modern day, because of its waterproofing and soundproofing effects, Hwangchil is used as a "RAM" or radar-absorbent material that makes it less likely for airplanes or ships to be detected on radar.

The Benefits of Hwangchil

Liver Cleanser

Give your liver a cleanse with Hwangchil's detoxifying action. Promotes liver function, helping relieve hangover and fatigue by functioning as a detoxifier and helps with feelings of lethargy and lack of ambition.

Anti-Aging Elixir

Look and feel younger. Hwangchil's anti-oxidant rich properties nourish the skin to fight signs of aging; helping to prevent wrinkles and promote overall elasticity of the skin.

Bone and Teeth Strengthener

Support your gums and protect your teeth, Hwangchil helps build and maintain strong bones and teeth by contributing to the proliferation of osteoblasts (cells that create bone) and helps prevent osteoporosis and arthritis by reducing joint inflammation.

Natural Sleep Aid

Fall asleep faster and sleep more deeply. Hwangchil's sedative action can help you release tension, irritability and worry — all those things that keep you from getting a good night's sleep.

Natural Pest Control

Use it as a tea or poultice for relieving insect bites, fungal infections or skin rashes. The Hwangchil tree is strongly resistant to disease, pests and pollution, making it an excellent antimicrobial.

Energy Clearing

Clear a room of odors or neutralize negative energies to make a space for meditation with Hwangchil incense. Its sharp, fresh, soothing but stimulating fragrance is similar to benzoin, a balsam resin, and is a powerful way to balance both body and mind.

Hwangchilga SOLARBODY Ultra hydro Bodycare system

Hwangchilga SOLARBODY Ultra hydro Body Wash

biodegradable natural surfactant, coming from coconut and sugar cane is environment friendly. As the cleansing components from nature are light and mild, it is commonly used for baby care products, it will also refresh and smoothen your skin with perfect cleansing activity

Mild surfactant coming from coconut, sodium lauroyl methyl isethionate

Mild surfactant coming from sugar cane, Lauryl Glucoside

1.nature-originated Sarfactant

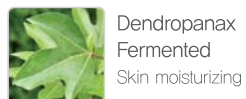

“Nature-originated surfactant” provides rich foam to refresh whole the body, not leaving you feeling slippery after wash.

2.real moisturizing ingredients

Moisture Magnet in Human Body - Dual Hyaluronic Acid

Dual hyaluronic acid consists of “low molecular hyaluronic” and “high molecular hyaluronic acid”, and it ideally keeps both inside and outside of the skin hydration, Low molecular hyaluronic acid quickly penetrates into the skin to keep the inside the skin fully moisturized without stickiness, while high molecular hyaluronic acid which has larger molecules forms a protection layer onto skin to protect moisture from drying out.

3.nature-originated ingredients

Dendropanax Fermented
Skin moisturizing

Foeniculum Vulgare
Skin smoothening
Antioxidative activity

Betaine
Skin moisturizing

Aloe Vera
Skin soothing

Hwangchilga SOLARBODY Ultra hydro Body Lotion

Free from harmful ingredients

- ✓ No Synthetic surfactant
- ✓ No Artificial perfume
- ✓ No Artificial coloring
- ✓ No Mineral oil
